Operational Changes

In light of the new trading hours, EPs are reminded to review their trading, clearing and back office systems as well as operational procedures to ensure their systems and operations are ready to support the changes. The change to trading arrangements under typhoons and black rainstorms will also take effect accordingly. Please refer to the circular dated 24 January 2011 (Ref No: LSD/008/11)..

Period for Determination of Final Settlement Price/Official Settlement Price

The period for the determination of final settlement prices/official settlement prices of the following futures & options contracts will be extended according to the changes in the trading hours of SEHK's continuous trading sessions but the calculation algorithm set forth in contract specifications will remain unchanged. For the avoidance of doubt, there will be totally 66 readings taken at 5-minute intervals on the last trading day after the changes.

1. Hang Seng Index Futures and Options (Including Flexible Index Options);
2. Mini-Hang Seng Index Futures and Options;
3. H-shares Index Futures and Options (Including Flexible Index Options);
4. Mini H-shares Index Futures; and
5. Stock Futures.

Simulation Sessions

To facilitate EPs to prepare themselves for the changes to trading hours, HKEx will offer a series of optional simulation sessions in February 2012 for EPs to simulate their system operations and other daily activities under the new trading hours as follows:

Date	Targeted EPs	Remarks
13 – 17 February 2012 (08:45 – 03:00)	EPs using OAPI programs and with testing lines	Free of charge Trading hours of simulation will follow real time clock of new changes except that the afternoon session will be closed at 03:00 to cater testing need from overseas.
18 February 2012 (08:45 – 16:15)	All EPs	Free of charge Trading hours of simulation will follow real time clock of new changes.

Please refer to Attachment I for detailed arrangements.

Arrangements of the Optional Simulation Sessions

1. Simulation Sessions from 13 to 17 February 2012

Simulation Sessions from 13 to 17 February 2012 will be conducted in HKATS testing environment with trading hours following the real time clock except that all markets will be closed at 03:00. EPs with OAPI connection and testing lines could join these Simulation Sessions by submitting the Request for Access to HKATS Testing Environment form to HKEx by fax at 2877 0017 or 2509 0724 or email to clicksupport@hkex.com.hk.

2. Simulation Session on 18 February 2012

Exchange Participants (EPs) can test usual functions such as order input, amendment and cancellation under normal trading situation.

2.1 System Date, HKATS Username & Password

The system date will be set as **18 February 2012**. EPs will use their production HKATS usernames (as in the production environment as at **1 February 2012**) and temporary password of "hkextesting" to login HKATS to perform the Simulation Session. Each HKATS username will have the same trading rights as in the production environment as at 1 February 2012.

2.2 Production-like Environment

The production-like environment of the following markets will be available for the Simulation Session: Stock Futures, Hang Seng Index Futures and Options (Including Flexible Index Options), Mini-Hang Seng Index Futures and Options, H-shares Index Futures and Options (Including Flexible Index Options), Mini H-shares Index Futures, and Dividend Futures. EPs are reminded to backup production data prior to the simulation and make sure that all testing data will not be carried forward to production.

2.3 Typhoon and Black Rainstorm Arrangement

Typhoon Arrangement

1. If typhoon signal no.8 or above remains hoisted at 07:00 on the simulation day, the simulation will be cancelled. HKEx will notify the participants of the revised schedule of the simulation later.

2. If typhoon signal no.8 is hoisted after 09:00, all activities will be terminated 15 minutes after the issuance of typhoon signal no. 8.

Black Rainstorm Arrangement

1. If black rainstorm warning remains issued at 07:00 on the simulation day, the simulation will be cancelled. HKEx will notify the participants of the revised schedule of the simulation later.

2. If black rainstorm warning is issued during the simulation, all activities will be processed as normal.

2.4 EP Communication Channels

During the simulation, HKEx will communicate with participants via the Market Messages Window on HKATS.
