The Exchange reviewed the designated contract market core principles (“Core Principles”) as set forth in the Commodity Exchange Act (“CEA” or “Act”) and identified that the Contracts may have some bearing on the following core principles:

- **Compliance with Rules:** Trading in the Contracts will be subject to the rules in Rulebook Chapter 4 which includes prohibitions against fraudulent, noncompetitive, unfair and abusive practices. Additionally, trading in the Contracts will also be subject to the Exchange’s trade practice rules, the majority of which are contained in Chapter 5 of the Rulebook. The Contracts will be subject to monitoring and surveillance by the Exchange’s Market Regulation Department. The Market Regulation Department has the authority to exercise its investigatory and enforcement power where potential rule violations are identified.
- **Contract Not Readily Subject to Manipulation:** The Contracts are not readily susceptible to manipulation and are based on the liquidity and robustness of the underlying cash markets.
- **Prevention of Market Disruption:** Trading in the Contracts will be subject to the Rules of the Exchange which include prohibitions on manipulation, price distortion and disruptions of the delivery or cash-settlement process. Activity in the Contracts will be subject to extensive monitoring and surveillance by the Market Regulation Department.
- **Position Limitations or Accountability:** The speculative position limits for the Contracts as demonstrated in this submission are consistent with the Commission’s guidance.
- **Availability of General Information:** The Exchange will publish on its website information regarding contract specifications, terms and conditions, as well as daily trading volume, open interest and price information for the Contracts.
- **Daily Publication of Trading Information:** The Exchange will publish information on the Contracts’ trading volumes, open interest levels, and price information daily on its website and through quote vendors for the Contracts.
- **Execution of Transactions:** The Contracts will be listed for trading on the CME Globex electronic trading and for clearing through CME ClearPort. The CME Globex trading venue provides for competitive and open execution of transactions. CME Globex affords the benefits of reliability and global connectivity.
- **Trade Information:** All required trade information for the Contracts will be included in the audit trail and is sufficient for the Market Regulation Department to monitor for market abuse.

- **Financial Integrity of Contract:** The Contracts will be cleared by the CME Clearing House, which is a registered derivatives clearing organization with the Commission and is subject to all Commission regulations related thereto.
- **Protection of Market Participants:** CBOT Rulebook Chapters 4 and 5 contain multiple prohibitions precluding intermediaries from disadvantaging their customers. These rules apply to trading on all of the Exchange's competitive trading venues and will be applicable to transactions in the Contracts.
- **Disciplinary Procedures:** Chapter 4 of the Rulebook contains provisions that allow the Exchange to discipline, suspend or expel members or market participants that violate the rules. Trading in the Contracts will be subject to Chapter 4, and the Market Regulation Department has the authority to exercise its enforcement power in the event rule violations in the Contracts are identified.
- **Dispute Resolution:** Disputes with respect to trading in the Contracts will be subject to the arbitration provisions set forth in Chapter 6 of the Rulebook. The rules in Chapter 6 allow all nonmembers to submit a claim for financial losses resulting from transactions on the Exchange to arbitration. A member named as a respondent in a claim submitted by a nonmember is required to participate in the arbitration pursuant to the rules in Chapter 6. Additionally, the Exchange requires that members resolve all disputes concerning transactions on the Exchange via arbitration.

Pursuant to Section 5c(c) of the Act and CFTC Regulation 40.2(a), the Exchange hereby certifies that the Contracts comply with the Act, including regulations under the Act. There were no substantive opposing views to the proposal.

The Exchange certifies that this submission has been concurrently posted on the CME Group website at <http://www.cmegroup.com/market-regulation/rule-filings.html>.

Chapter 48 10-Ton Urea US Gulf Futures

48100. SCOPE OF CHAPTER

The provisions of these rules shall apply to all futures contracts bought or sold on the Exchange for cash settlement based on the Floating Price.

48101. CONTRACT SPECIFICATIONS

The Floating Price for each contract month shall be based on price assessments for “Granular Barges Spot FOB USG 0-30 Days” published daily by ICIS during the contract month and price assessments for “US Gulf \$ps ton fob 30 days” published daily by Profercy during the contract month, as described in paragraph (A) below.

Notwithstanding the above, the Floating Price for all listed December contract months shall be based on price assessments published up to and including the last trading day of the December contract month.

(A) For each set of daily data published by ICIS and Profercy, comprising both a high and a low price from each source, the highest overall price and the lowest overall price shall be removed from the data set, subject to paragraph (B). In the case of multiple highest or lowest prices, only one such price shall be removed from the data set, subject to paragraph (B). The arithmetic average of the remaining data points shall be calculated as the daily average price. The Floating Price shall be the arithmetic average of the daily average prices determined from price assessments published during the contract month.

(B) Should either ICIS or Profercy, for any reason, publish the same price in respect of a daily price assessment, such price shall be used twice in the formulation described in paragraph (A) in order to determine the daily average price. Should either ICIS or Profercy, for any reason, fail to publish any price in respect of a daily price assessment, the daily average price shall be determined as the arithmetic average of the remaining published prices. Should both ICIS and Profercy, for any reason, fail to publish any price in respect of a daily price assessment, that day shall not be included in calculation of the Floating Price.

48102. TRADING SPECIFICATIONS

Contracts shall be listed for a series of contract months. The number of months open for trading at any given time shall be determined by the Exchange.

48102.A. Trading Schedule

The hours of trading for this contract shall be determined by the Exchange.

48102.B. Trading Unit

The contract size shall be 10 short tons. Each contract shall be valued as the contract size multiplied by the settlement price.

48102.C. Price Increments

Prices shall be quoted in U.S. dollars and cents per ton. The minimum price fluctuation shall be \$1.00 per ton. The minimum fluctuation in respect on the Floating Price shall be \$0.01 per ton. There shall be no maximum price fluctuation.

48102.D. Position Limits, Exemptions, Position Accountability and Reportable Levels

The applicable position limits and/or accountability levels, in addition to the reportable levels, are set forth in the Position Limit, Position Accountability and Reportable Level Table in the Interpretations & Special Notices Section of Chapter 5.
