

CFE Information Circular IC06-008

Date: August 4, 2006

To: CFE Trading Privilege Holders
Independent Software Vendors

From: CBOE Futures Exchange

Re: Independent Software Vendor Incentive Program

CBOE Futures Exchange (CFE) is announcing a new Program to encourage Independent Software Vendors (ISVs) and their customers who are Trading Privilege Holders (TPHs) to connect to CFE. Any ISV is eligible to request to participate in the Program. The Exchange may approve up to five ISVs to participate in the Program and will select ISVs based upon the Exchange's judgment as to which ISVs would provide the greatest amount of access to CFE.

For the purposes of the Program, an ISV is an organization that desires to provide or provides connectivity to CFE on behalf of one or more TPHs. All access to CFE must occur through a TPH and is subject to the Rules of the Exchange.

An ISV participant in the Program shall receive a designated one-time payment from the Exchange if the ISV completes all necessary work and first establishes connectivity to CFE during the time period from August 1, 2006 through April 30, 2007.

An ISV participant in the Program shall also receive a designated monthly payment for each TPH organization for which the ISV provides connectivity to CFE during any month within the time period from August 1, 2006 through August 31, 2007. This payment shall be limited to four TPHs per ISV.

The Program will terminate on August 31, 2007. The Exchange may determine to extend the term of the Program, allow the Program to expire or modify the Program at any time. For specific details of the Program please see CFE Policy and Procedure V, available at <http://cfe.cboe.com>.

Questions regarding the Program or applications to participate may be directed to Jay Caauwe, 312-786-8855, caauwe@cboe.com or Patrick Fay, 312-786-7925, fayp@cboe.com.
