	Field Value	Fix Tag - Field Name	Applicable Securities	Transaction Type	Additional Comments
Trade Types	Special Price	828 - TrdType	All	One sided report Two sided report	«Special Price» is specifying a trade report whose price differs from the market price at the time of entry (VWAP, Portfolio-Trades, Counter Trades, Aggregated Orders, Trade reporting after emergency situations)
	Deferred Publication	1390 - TradePublishIndicator	Shares CHF Bonds	One sided report Two sided report	«Deferred Publication» is specifying a trade report a) with the required minimum volume, depending on the average daily turnover, which is published with a delay; b) in CHF bonds published before the opening of trading on the following trading day
	Publish Trade		All	One sided report Two sided report	«Publish Trade» is specifying a trade report which is to be published immediately.
	Off Exchange	829 - TrdSubType	All	One sided report Two sided report	«Off Exchange» is specifying a trade report which is not subject to the provisions of the Rule Book.
	Transaction Report	5055 - TransReport	All	Delivery Report	«Transaction Report» is specifying a delivery report which has been reported as a transaction report to the Reporting Office under the «Reporting Office Rules for the Fulfilment of the Legal Reporting Requirements for Securities Dealers»
	Both Parties	6577 - Tariff	All	One sided report	«Both Parties» is specifying a one-sided trade report which has been reported to the Exchange in the name of both parties involved in the transaction.
Trade Flags	Removed Liquidity	851 - LastLiquidityInd	All	On Order Book	«Removed Liquidity» is specifying the side of a transaction which has triggered the transaction in the orderbook.
	Added Liquidity		All	On Order Book	«Added Liquidity» is specifying the side of a transaction which has contributed liquidity to the order book.
	Auction		All	On Order Book	«Auction» is specifying that both sides of a transaction were executed during a non-continuous trading period.
	Do not Publish	1390 - TradePublishIndicator	International Bonds	On Order Book One sided report Two sided report	«Do not Publish» is specifying a trade report in international bonds that is published on a cumulated monthly basis, aggregated by sector.
	SLS	26559 - EntrySource	SLS Securities	One sided report Two sided report	«LN» is specifying a trade that has been reported via the SIX Swiss Exchange Liquidnet Service (SLS) undisclosed block trading system at Mid-point Price.
	Mistrade	277 - TradeCondition	All	Trade Cancellation	«Mistrade» is specifying a trade that has been declared null and void and cancelled by SIX Swiss Exchange according to Directive 4: Market Control .
	On Behalf		All	Trade Cancellation	«OnBehalf» is specifying a trade that has been cancelled by SIX Swiss Exchange on behalf of the involved counterparties according to Directive 3: Trading .
	Canc Buy	6577 - Tariff	All	Cancellation Request	«CancBuy» is specifying that the buy party will be charged the cancellation fee
	Canc Sell		All	Cancellation Request	«CancSell» is specifying that the sell party will be charged the cancellation fee
	Canc Split		All	Cancellation Request	«CancSplit» is specifying that the cancellation fee will be split between the parties.
	Yes	7205 - InternalCross	All	On Order Book	«Internal Cross» is specifying a transaction for one and the same beneficial owner. Nostro-nostro crosstrades are forbidden if buy and sell orders in a single security are entered for the same beneficial owner. The ban shall not cover simultaneous buy and sell orders for the participant's own account if the participant can prove that individual orders were entered independently of each other and without any form of agreement in the exchange system. The participant must take steps to avoid forbidden nostro-nostro crosstrades.

The table below shows, for each permitted delay for publication and each class of shares in terms of average daily turnover (ADT), the minimum qualifying size of transaction that will qualify for that delay in respect of a share of that type.

Class of shares in terms of average daily turnover (ADT)

a	b	c	d
ADT < CHF 150'000 (EUR 100'000)	CHF 150'000 (EUR 100'000) ≤ ADT < CHF 1'500'000 (EUR 1'000'000)	CHF 1'500'000 (EUR 1'000'000) ≤ ADT < CHF 75'000'000 (EUR 50'000'000)	ADT ≥ CHF 75'000'000 (EUR 50'000'000)

Minimum qualifying size of transaction for permitted delay

		a	b	c	d
Permitted delay for publication	60 minutes	CHF 15'000 (EUR 10'000)	Greater of 5% of ADT and CHF 37'500 (EUR 25'000)	Lower of 10% of ADT and CHF 5'250'000 (EUR 3'500'000)	Lower of 10% of ADT and CHF 11'250'000 (EUR 7'500'000)
	180 minutes	CHF 37'500 (EUR 25'000)	Greater of 15% of ADT and CHF 112'500 (EUR 75'000)	Lower of 15% of ADT and CHF 7'500'000 (EUR 5'000'000)	Lower of 20% of ADT and CHF 22'500'000 (EUR 15'000'000)

According to Directive 4: Market Control the participants may request Market Control to delete its orders and/or quotes in case of failure of the participants' access systems.

Cancellation of orders must be given over the telephone to Market Control (+41 (0)58 399 24 75); written confirmation of the emergency deletion must be e-mailed to Market Control (helpdesk.exc@six-group.com) as soon as possible, but no later than before the end of the current trading day.

Please note that Market Control may reject the deletion of orders at its own discretion in exceptional situations.

Please find below the most established and efficient scenarios to perform emergency deletions at SIX Swiss Exchange. Find a complete list of conditions for emergency deletions in the guide "Emergency Deletions - Conditions".

Type of Emergency Deletion		Participant	Trader User	Name of product or underlying	Order ID	Buy / Sell / All
Participant Level	All orders and quotes for all securities	☒				☒
	All orders and quotes in a single security	☒		☒		☒
	All orders and quotes in an underlying.	☒		☒		☒
Trader / User Level	All orders and quotes for all securities		☒			☒
	All orders and quotes in a single security		☒	☒		☒
	All orders and quotes in an underlying.		☒	☒		☒
Security Level	Single order (STI only) ¹	☒	☒		☒	☒
Force Logoff ²	All quotes for a QTI User (Market Maker)		☒			
	All orders for an OTI User		☒			
SLS	All orders for all securities	☒				

☒ Information to be provided on the confirmation message

¹ This type of emergency deletion will only be performed in exceptional situations.

² Force Logoff is not applicable to STI User. Only applicable if flag "order persistency upon disconnect" is NOT configured for QTI and OTI User.

Find below a complete list of conditions under which emergency deletions can be made:

Attribute	Field Description	Comment
At least one attribute is mandatory	Participant STI FIX-Tag 448 - partyID OTI - partyID QTI - partyID	Identifier of the participant
	User ¹ The OTI or QTI user	This attribute does not delete orders for the entire legal entity but only for the indicated Party Id of the participant.
Additional security attributes which are optional and can not be accumulated	Security RDI - isin STI FIX-Tag 48 - SecurityID OTI - Orderbook QTI - Orderbook	The instrument Identifier value. ISIN code of the product
	Board ¹ RDI - boardId OTI - boardId QTI - boardId	Group of securities that share the same attributes for instance market making, trading schedules, exchange rules etc.
	Underlying ¹ RDI - instrId OTI - instrId QTI - instrId	The Instrument of a given security is used to model dependencies between securities (underlying security)
Additional order attributes which are optional and can be accumulated	Trader STI FIX-Tag 523 - PartySubID OTI - Principal Id (bit 14-30) QTI - Principal Id (bit 14-30)	The identification of the user / trader
	Side STI FIX-Tag 54 - Side OTI - Order Verb QTI - Order Verb	Buy Sell
	Trading Capacity STI FIX-Tag 528 - Order Capacity OTI - Principal Id (bit 31) QTI - Principal Id (bit 31)	P = Principal (Nostro) R = Riskless Principal (Customer)
	Client Reference STI FIX-Tag 448 - PartyID of Client Party OTI - Principal Id (bit 0-13) QTI - Principal Id (bit 0-13)	The client reference. Optional max. 30 SWIFT characters
	Single Order STI FIX-Tag 37 - OrderID	Unique identifier for Order assigned by the exchange
	Force Logoff OTI QTI	OTI/QTI: No attribute on order or quote level. User configuration "order persistency upon disconnect" supported. If flag is set, orders/quotes will not be deleted upon Force Logoff.
